

Loyalty Activity

Choosing Your Wildlife Loyalty Species

Today, identify a species, endangered or not, that has lived for eons in this amazing valley and these glorious mountain ranges. Research all that you can about *Your WildLife Loyalty Species*—its particular hardships, challenges, loss of habitats, mating and feeding grounds, vanishing migratory paths and water sources.

Be willing to identify that we two-leggeds have caused these concerns. Be willing to advocate for the species that most draws you. Be willing to advocate for that species, by speaking for it.

Be willing to advocate for those who do not speak the language of Human Domination.

This is true Loyalty. It is so!
